Treaty on European Union (7 February 1992)

[...]

Article 109j

1. The Commission and the EMI shall report to the Council on the progress made in the fulfilment by the Member States of their obligations regarding the achievement of economic and monetary union. These reports shall include an examination of the compatibility between each Member State's national legislation, including the statutes of its national central bank, and Articles 107 and 108 of this Treaty and the Statute of the ESCB. The reports shall also examine the achievement of a high degree of sustainable convergence by reference to the fulfilment by each Member State of the following criteria:

- the achievement of a high degree of price stability; this will be apparent from a rate of inflation which is close to that of, at most, the three best performing Member States in terms of price stability;
- the sustainability of the government financial position; this will be apparent from having achieved a government budgetary position without a deficit that is excessive as determined in accordance with Article 104c(6);
- the observance of the normal fluctuation margins provided for by the Exchange Rate Mechanism of the European Monetary System, for at least two years, without devaluing against the currency of any other Member State;
- the durability of convergence achieved by the Member State and of its participation in the Exchange Rate Mechanism of the European Monetary System being reflected in the long-term interest rate levels.

The four criteria mentioned in this paragraph and the relevant periods over which they are to be respected are developed further in a Protocol annexed to this Treaty. The reports of the Commission and the EMI shall also take account of the development of the ECU, the results of the integration of markets, the situation and development of the balances of payments on current account and an examination of the development of unit labour costs and other price indices.

2. On the basis of these reports, the Council, acting by a qualified majority on a recommendation from the Commission, shall assess:

- for each Member State, whether it fulfils the necessary conditions for the adoption of a single currency;
- whether a majority of the Member States fulfil the necessary conditions for the adoption of a single currency,

and recommend its findings to the Council, meeting in the composition of the Heads of State or of Government. The European Parliament shall be consulted and forward its opinion to the Council, meeting in the composition of the Heads of State or of Government.

3. Taking due account of the reports referred to in paragraph 1 and the opinion of the European Parliament referred to in paragraph 2, the Council, meeting in the composition of Heads of State or of Government, shall, acting by a qualified majority, not later than 31 December 1996:

- decide, on the basis of the recommendations of the Council referred to in paragraph 2, whether a majority of the Member States fulfil the necessary conditions for the adoption of a single currency;
- decide whether it is appropriate for the Community to enter the third stage, and if so

- set the date for the beginning of the third stage.

4. If by the end of 1997 the date for the beginning of the third stage has not been set, the third stage shall start on 1 January 1999. Before 1 July 1998, the Council, meeting in the composition of Heads of State or of Government, after a repetition of the procedure provided for in paragraphs 1 and 2, with the exception of the second indent of paragraph 2, taking into account the reports referred to in paragraph 1 and the opinion of the European Parliament, shall, acting by a qualified majority and on the basis of the recommendations of the Council referred to in paragraph 2, confirm which Member States fulfil the necessary conditions for the adoption of a single currency.
