Amounts are expressed in EUR million. The conversion rates used by the EIB for recording statistics of its financing operations – contract signatures and disbursements – as well as of its borrowings are those obtaining on the last working day of the month before the date of the operation.

As round figures are used, it is possible that the totals do not correspond to the sum of the individual amounts.

In the list of operations within the European Union, the Community policy objectives with which loans comply are indicated by these symbols in the right-hand column:

- convergence
- transport project of common interest
- energy project of common interest
 environment and
- sustainable communities

 knowledge economy

Unless otherwise indicated, credit lines cover a number of sectors.

In the list of operations outside the European Union loans from own resources are indicated by **.

and financing operations from budgetary resources, in the form of either a conditional loan or an equity participation, by **\(\Lambda \)**.

⁽¹⁾ Financing operations in the members of the European Free Trade Association (EFTA) equivalent to operations in the European Union. Since 2010, Iceland has formed part of the group of enlargement countries. Historical amounts are included under this new heading.

Table F: Breakdown of loans by region in 2010 and from 2006 to 2010

This analytical table is based on NUTS 1 or 2 regional classification, depending on the country concerned. Where possible, individual loans covering several regions have been subdivided. EUROSTAT estimates of per capita (2007) GDP expressed in terms of purchasing power parities (EU27=100). 2009 unemployment rate (EU27=7.0). 2009 population figures except Belgium and United Kingdom (2008) ('000).
